

Ultimate Bug Viewer™

When placing bugs in The Ultimate Bug Viewer, please be gentle. Please release bugs when you've finished looking at them.

How To Observe and Release Bugs

1. Remove Bug Viewing Dome from The Under Bug Viewer.
2. Flip open The Leaf Hinge on Bug Viewing Dome.
3. Carefully nudge The bug into The Bug Viewing Dome with your Leaf Tool.
4. Close Bug Viewing Dome and place on Under Bug Viewer.
5. View bug from above with Magnifier Cap or from underneath with The Under Bug Viewer.
6. Gently release bug from where you collected it.

Some bugs to observe include:

- Lady Bugs
- Beetles
- Ants
- Fireflies
- June Bugs
- Crickets
- Grasshoppers
- Daddy Long Legs
- Flies
- Caterpillars
- Moths
- Preying Mantis
- Tree hoppers
- Katydid
